## Thousands Have Kidney Trouble and Don't Know It.

**How To Find Out.**  
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**What to Do.**  
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., One of Swamp-Root Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

## FEARS AROUSED

**Situation On the Island of Martinique is Far From Comforting.**

## MOUNT PELEE SMOKES

**Another Tremendous Explosion From the Wicked Mountain Adds to a People's Panic.**

**Thrilling Situation of Explorer Kennan and Prof. Hill of Geographic Society.**

Fort DeFrance, Island of Martinique, May 29.—A tremendous explosion of very black smoke from Mount Pelee at 8:45 o'clock yesterday morning accentuated the fear entertained for the safety of George Kennan, the American author, who with a land party has been examining the northern part of the island. The governor of Martinique, M. L'Huere, was at once sent with the object of arranging a rescue party to proceed by land in connection with the voyage along the coast of the United States cruised Cincinnati, should such steps appear necessary. At about 11 o'clock, however, Ferdinand Clero, a wealthy landed proprietor of Martinique, arrived here and announced that Mr. Kennan and his party were safe on a plantation at the north of the island.

Prof. Robert T. Hill, United States government geologist and head of the expedition sent to Martinique by the National Geographic Society, who left Fort DeFrance Monday on horseback for the volcano, returned here yesterday. He was completely worn out by the trip. Prof. Hill heard the explosion while on his way into Fort DeFrance, and he says a cloud of black smoke at a great height was drifting slowly to the southeast.

Speaking personally of his expedition to Mount Pelee, Prof. Hill said: "My attempt to examine the crater of Mount Pelee has been futile. I succeeded, however, in getting very close to Morné Rouge. At 7 o'clock Monday night I witnessed from a point near the ruins of St. Pierre a frightful explosion from Mount Pelee and noted the accompanying phenomena. While these eruptions continue no sane man should attempt to ascend to the crater of the volcano. Following the detonations from the mountain gigantic mushroom-shaped columns of smoke and cinders ascended into the clear, starlit sky and then spread in a vast black sheet to the south and directly over my head. Through this sheet, which extended a distance of 10 miles from the crater, vivid and awful lightning-like bolts flashed with alarming frequency. They followed distinct paths of ignition but were different from lightning in that the bolts were horizontal and not perpendicular. This is indisputable evidence of the explosive oxidation of the gases after they left the crater. This is a most important observation and explains, in part, the awful catastrophe. This phenomena is entirely new in volcanic history.

"I took many photographs, but do not hesitate to acknowledge that I was terrified. But I was not the only person so frightened. Two newspaper correspondents who were close to Morné Rouge some hours before me became scared, ran three miles down the mountain and hastened into Fort DeFrance.

"The people on the north end of the island are terrified and are fleeing with their cattle and effects. I spent Tuesday night in a house at Deux Choux with a crowd of 200 frightened refugees.

"Nearly all the phenomena of these volcanic outbreaks are new to science, and many of them have not yet been explained. The volcano is still intensely active, and I cannot make any predictions as to what it will do."

**Dust Carried Fifty Miles.**  
St. Johns, Island of Antigua, B. W. I., May 29.—The British steamer Pontabelle, from New York for various West Indian ports, has arrived here and reports having passed St. Pierre, Martinique, during the afternoon of May 27, when vast columns of smoke and flashes from Mount Pelee were visible 40 miles away. Dust fell on the steamer from 50 miles from the island. The Pontabelle had previously landed relief supplies at Fort DeFrance.

**Thick Black Smoke.**  
Rosseau, Island of Dominica, May 29.—The British steamer Savan from London for Barbadoes and West Indian ports, has arrived here. She passed Mount Pelee, Island of Martinique, at 9 o'clock yesterday morning, when a thick, black smoke was arising from the volcano and the officers of the Savan believed from the great quantity of dust which fell on the steamer that another eruption had occurred.

**Charged With Murder.**  
Tiffin, O., May 29.—Luther Hershey, a dairyman who it is alleged was assaulted by Colonel Albert M. Brewer, a prominent citizen of this city, Tuesday night, died at his home here yesterday. Brewer has been arrested, charged with murder. It is said that the fight occurred in a saloon and that Brewer struck Hershey on the head with a bottle. Colonel Brewer was on ex-Governor Bushnell's staff and is well known throughout the state.

## NO STRIKE LIKELY

**Indiana Miners Will Keep Out of Anthracite Muddle.**

Indianapolis, May 29.—J. Smith Talley of Terre Haute, John Seyfried of Sullivan, and Phil Penna of Linton, three leading operators, who were in Indianapolis last night, expressed the opinion that there is but small likelihood of a general strike among the coal miners of Indiana. This statement was made after it was suggested that there was a prospect of the mine workers calling a national convention for the purpose of involving the entire bituminous fields in the trouble of the anthracite men. The Indiana operators do not believe the miners can afford to break the annual contract they have signed unless the mine owners should try and break down the anthracite strike by supplying the anthracite market with coal. In that event a general sympathetic strike would not be unlikely. President Mitchell was at the headquarters today getting ready for a long sojourn in the anthracite district. He will have personal supervision of the great strike.

The Democrats have lost two candidates and gained one. John W. Minor of Indianapolis, who made the race twice for auditor of state and who it was understood would probably be renominated, has announced that he can not make another race, because his business needs his attention. He adds, however, that he is confident that the Democrats will carry the state this year. George W. Duke of Kokomo, another prospective candidate for auditor, has also announced that he will not be a candidate under any circumstances. This is rather discouraging to the party leaders, who do not like to see the field growing smaller at this time. The new candidate is C. C. DeHorty of Elwood, former treasurer of Madison county, who now wants to become state treasurer. He is an avowed candidate, but it is not very likely that he will get the nomination, as Jerome Herff of Peru, who was a candidate two years ago, wants to make another race and it is the rule of the Democrats to give a defeated candidate a second trial.

Indianapolis is rapidly becoming a favorite center for the fast horsemen of the country. The track here is regarded as one of the best and fastest in the world. A half-mile track to be used for training purposes is now being built and there will also be a new drive about the mile track. There are now located at the grounds some of the fastest horses in the country. Budd Doble, the world's famous driver, has a string of great ones that is the delight of every horseman, while there are several other well-known drivers training their fast ones here. It is predicted it will have the effect of creating fresh interest in harness racing in Indianapolis, and it is likely that next year the city will become a part of the grand circuit.

It is dangerous to tamper with free rural mail-boxes, although it is undoubtedly a great temptation to many people to remove letters and papers from them. A Randolph county man who was before Judge John H. Baker of the federal court, charged with having tampered with a rural mail-box, found that it did not pay. His attorney filed a demurrer alleging that the law protecting mail-boxes was enacted before there was such a thing as a rural mail-box, and therefore his client could not be punished. Judge Baker held, however, that there is no rule of law preventing an old law applying to new conditions and that the old law protecting mail-boxes should be construed just the same as if it had been enacted within the last 30 days.

**He Is Investigating.**  
Washington, May 29.—Senator Felipe Buencamino, one of the founders of the federal party in the Philippines, has arrived in this city from San Francisco and has had a short conference with Secretary Root of the war department. It is expected that later he will appear before the senate Philippine committee. The chief object of his visit to the United States is to become acquainted with the people and customs and to visit his sons at Berkeley college, California. Buencamino was one of the principal figures of the so-called Aguinaldo government, holding the office of secretary of state when he was captured.

**United Presbyterians.**  
Pittsburg, May 29.—The 44th general assembly of the United Presbyterian church was formally opened last night in the Eighth United Presbyterian church with the final sermon of the retiring moderator, Rev. Dr. J. A. Thompson, president of Tarkio college, Mo.

**Dr. Borrow's Illness.**  
Oberlin, O., May 29.—The physicians in attendance upon Dr. John Henry Borrow, who is seriously ill, report that his condition is slightly improved but not sufficiently so to give great encouragement. The crisis in his illness is looked for Saturday.

**Won Three Medals.**  
Annapolis, Md., May 29.—In the presentation yesterday of medals to naval cadets for various degrees of excellence in athletics, James D. Williams, Fort Wayne, Ind., class of 1903, received three silver medals, one for general excellence, the others for winning the 100 and 220 yards dash.

**Bailey For Governor.**  
Wichita, Kan., May 29.—Ex-Congressman W. J. Bailey was nominated for governor on the first ballot by the state Republican convention.

## WILL ABIDE BY IT

**Louisville Merchants Uphold the Quarantine Against Indiana.**

## AROUSES THEIR FEARS

**While They Are Fearful They Will Lose Trade They Agree That Health Board Is Right.**

**Board of Trade Takes Action In the Matter and Upholds the Measure.**

Louisville, May 29.—The directors of the board of trade have appointed a committee to confer with the state board of health to secure if possible a modification or withdrawal of the quarantine against Indiana which will be enforced, beginning Sunday, on account of smallpox in that state. A committee was appointed at the solicitation of a number of merchants in this city who fear that the enforcement of the order will be a serious inconvenience to business. Lafan Allen, chairman of the committee, stated, however, that if in the opinion of the health authorities the quarantine was absolutely necessary, no attempt would be made on the part of the board of trade to secure its withdrawal.

After a conference with President Matthews of the Kentucky state board of health the committee announced that it would report to the board of trade that the quarantine should be upheld, the committee having agreed with Dr. Matthews that the order was advisable. Hundreds of persons have been vaccinated in New Albany and Jeffersonville, Ind., as a result of the quarantine order. Inspectors will be placed on all trains coming into this city from Indiana, as well as on the ferryboats and bridges between this city and Jeffersonville and New Albany, and all persons coming into Kentucky from Indiana will be obliged to exhibit certificates of vaccination.

## A BIG TIE-UP

**That Is What Is Threatened In Chicago's Packingtown.**

Chicago, May 29.—If the four great packing concerns at the Union Stockyards do not yield to the demands of the striking teamsters within a short time a general stoppage of 40,000 employees at the yards may result. Already several hundred persons have quit. The situation is becoming so involved that it apparently will be impossible for the union men to remain at work much longer without violating the rules of the Chicago Federation of Labor, under which they hold charters. A strike among the beef butchers or hog butchers or any other set of men, upon whom hundreds of others are dependent, would cause a complete tie-up in every branch. This is said to be not unlikely because in many instances union men have been asked to do the work of the strikers and have been discharged upon refusing. Furthermore, many union men are forbidden to handle goods that have been prepared by non-union labor, and it is said to be nearly impracticable for the men to continue without doing this.

**Bill Is Modified.**  
Havana, May 29.—The house of representatives has reconsidered the bill which provided amnesty for Americans who are under sentence or in jail in Cuba and has added an amendment which provides that amnesty be granted to native-born Americans only. In this form the bill was sent to the senate. The purpose of the amendment is to exclude from the proposed amnesty those naturalized American citizens who might be released under the bill and who might still continue to reside in Cuba. The house has voted to fix the salary of the president of the republic at \$25,000 a year and that of the members of congress at \$3,600.

**A Hopeful Prediction.**  
London, May 29.—The Daily Chronicle this morning declares that the negotiations which were practically concluded this week will witness the termination of the war in South Africa. The paper says it understands that the government has declined to grant the rebels unqualified amnesty or to fix a date for the establishment of self-government, and that English will probably be the official language in the two colonies.

**Tragic Occurrence.**  
Des Moines, Ia., May 29.—Mrs. Herbert Heskett and her infant child, whom she was wheeling in a baby carriage, were struck by an Illinois Central passenger train and killed yesterday afternoon on a trestle at Cedar Falls, Ia. The mother died instantly and the child lived but a few hours. They were returning from the funeral of a child who was killed on nearly the same spot by a freight train the day before.

**Conferees Agree.**  
Washington, May 29.—The omnibus public building bill has been agreed upon in conference. The bill carried \$15,800,000 when it left the house. The senate added \$3,200,000. In conference the senate amendments were reduced about \$1,200,000.

## MINE PROTECTORS

**It Is Decided That They Will Go Out Monday.**

Wilkesbarre, Pa., May 29.—The officers of the United Mine Workers' assemblies of this city have received reports from committees appointed to interview the engineers, firemen and pumpmen employed at the various collieries in this city and vicinity. These reports show that very few of the firemen and pumpmen were found who were unwilling to join the striking miners next Monday unless they were granted an eight-hour day. There were some engineers who said they would not quit work, but it is claimed they are comparatively few in number. Some coal operators and superintendents held a secret meeting at one of the coal offices yesterday afternoon. It is understood there was general discussion of the situation and what steps should be taken to protect the properties of the coal companies in case trouble should follow the installation of new men in the places of engineers, firemen and pumpmen who might quit work next Monday.

The big coal companies continue to swear in special officers. It is said a number were secured at Bloomsburg and Sunbury. They will arrive here Sunday, and on Monday morning will be assigned to the various collieries. A dispatch was received at strike headquarters last night that President Mitchell would arrive here Friday afternoon.

**Sargent's Opinion.**  
St. Louis, May 29.—Frank P. Sargent, member of the national board of arbitration, who is in St. Louis, says he thinks that if the strike of anthracite miners be not settled within the next eight or ten days there will in all probability be a sympathetic strike in the bituminous fields.

## A LABOR BATTLE

**Exciting Scene In Daviess County When Factions Come Together.**

## VISITORS ARE REPULSED

**Delegation From Linton Takes a Hand In a Strike Near Oden and Gets Worst.**

**News From Various Parts of Indiana Presented Briefly For the Hurried Reader.**

Washington, Ind., May 29.—Seventy-five men, members of the American Federation of Labor at Linton, marched to Oden, fifteen miles northeast of here yesterday and caused a riot in which they suffered defeat. The contractors on a system of gravel roads centering in Oden have had considerable trouble with their employees over the wage question for several days. The laborers demanded an increase, but the contractors claim they could not give the increase as the contract had been taken at very close figures.

Part of the men then decided to join the American Federation of Labor and force the contractors to grant the increase, but many of the men refused to join the union. The Linton delegation came over yesterday to urge the men to join the federation. They met the employees, but only part of them agreed to join. Later they approached the men who were working and asked them to lay down their tools, but the employees refused and then the Linton delegation tried to force them to quit. A wild scene followed, the men struggling with each other until almost the entire town had been aroused and arrayed themselves against the Lintonites. The latter then withdrew, saying they would go to Linton and return with 500 men and tie up all work.

## WHEELER'S LAST CHANCE

**Attorneys for Convicted Murderer Want a Rehearing.**

Indianapolis, May 29.—A final effort is to be made to save "Buck" Wheeler from the gallows. His attorneys have notified the attorney general that they would, on June 3, file a motion in the supreme court for a rehearing. The supreme court week before last affirmed the sentence of the lower court and condemned him to death on June 6. There is a narrow margin of three days between the filing of the motion for a new trial and the day set for the execution. Wheeler murdered his son-in-law, Elias Burns, near Booneville, Warlick county last September. He first shot Burns through the body, then attacked his divorced wife, and later struck Burns with an ax.

## Babies and Minors Barred.

Terre Haute, Ind., May 29.—Many women have attended the trial of Dora Bartlett, charged with the murder of Joseph Mahalek, who refused to buy beer at her resort, and some of them brought their babies to the trial with them. Judge Piety ordered the women to take the babies from the courtroom and directed that no one under 21 years of age be admitted.

## To Preserve Helios.

Fort Wayne, Ind., May 29.—The local chapter of the Daughters of the American Revolution have had the county commissioners set apart a room in the new courthouse to be used as a repository for the relics of General Anthony Wayne, and of the Indian and revolutionary history, in which this vicinity is rich.

## Breach of Promise.

Richmond, Ind., May 29.—Alvin E. Crocker of New York has been sued for breach of promise by Miss Evelyn Stedeker, the amount of damages asked being \$50,000. Crocker is a former Richmond man, who left here a few years ago. He is a widower, about 63 years old. The plaintiff is between 30 and 40.

## Congregation Protests.

Hartford City, Ind., May 29.—A committee has gone to Fort Wayne to talk with Bishop Aldering to have an order rescinded that transfers the Rev. Father Due to a small town east of Fort Wayne. The priest has had charge of the church here, at Montpelier and Dunkirk for 10 years.

## Caught By Trolley Wire.

Wabash, Ind., May 29.—As Mr. and Mrs. Crume were driving to their home north of the city the horse accidentally touched a telephone wire, which broke and fell against a trolley wire. The animal dropped dead in its tracks, and Mr. and Mrs. Crume were badly injured.

## Wanted No Funeral.

Portland, Ind., May 29.—Benjamin Florence, a Green township farmer, committed suicide by taking a dose of strychnine. He gave no reason for the act, but asked that no funeral services be held. Florence was 25 years old.

## Prevented a Blaze.

Bluffton, Ind., May 29.—Firebugs attempted to burn the H. C. Arnold grain elevator. An old broom, saturated with oil, was set on fire and thrown into the grain chute, but was discovered in time to prevent a disastrous blaze.

## HANNA'S RALLY CRY

**"Keep On Letting Well Enough Alone," Says He.**

Cleveland, May 29.—The Republican state convention, which has been a continued ovation here all week to Senator Hanna, closed last evening with a great demonstration in his honor, to which he responded in a characteristic speech. The senator at former state conventions has sounded keynotes that were taken up by Republican glee clubs. He told them yesterday to sing "Keep on letting well enough alone," in the campaign rallies this year. Lewis C. Laylin of Norwalk for secretary of state, heads the ticket.

## A VOTE IN SIGHT

**Senate Will Settle Philippine Bill On Tuesday.**

Washington, May 29.—An agreement was reached in the senate yesterday by which a final vote on the pending Philippine government bill and all amendments will be taken next Tuesday at 4 p. m. Pending the vote the senate will meet at 11 o'clock each day except Friday, when the senate will not sit, it being Memorial Day. On Monday and Tuesday the debate will be under the 15-minute rule.

The house spent the day debating the bill to increase the subsidiary coinage by coining the silver bullion in the treasury and to recoin standard silver dollars as the public necessities may require. The limit of subsidiary coinage is now \$100,000,000. The bill increases this to an indefinite amount in the discretion of the secretary of the treasury. The bill aroused the opposition of the Democrats, who claimed it was only a step in the direction of the complete striking down of the silver dollar. The debate drifted into a general discussion of the silver question. Very little interest was shown and Mr. Cochran twice made the point that no quorum was present.

## Detroit Murder Trial.

Detroit, Mich., May 29.—A jury was secured yesterday to try William M. Jones on the charge of murdering Geo. M. Heywood, in whose home he roomed. The taking of evidence began this morning. Mrs. Heywood, who has admitted her intimacy with Jones, is expected to furnish some of the strongest links in the circumstantial evidence the police have against Jones.

## South African Engagement.

London, May 29.—A despatch from Pretoria reports that 200 Boers have surrendered at Frankfort in the Orange River Colony. A statement was issued by a news agency yesterday that Lord Kitchener will become adjutant general to the forces instead of taking command of the Indian army as previously reported.

## He Confessed.

Springfield, Ills., May 29.—William Muffitt, wanted in Hawesville, Ky., on the charge of murdering Daniel Lewis March 30 last, was arrested on the street here yesterday. He confessed he had shot and killed Lewis because of Lewis' attentions to his wife.

## Counted Out.

Few people can understand the feelings of the pugilist as he is being counted out. He hears the seconds ticked off. He struggles to rise, but struggles in vain. He has lost the fight. There are some who are making a losing fight for life that can appreciate this; those whose lungs are diseased. With every tick of the watch, they know that they are being counted out. The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, obstinate, deep-seated coughs, hemorrhage, night sweats, emaciation, and other conditions which if neglected or unskillfully treated may end in a fatal termination in consumption.

## Memorial Day Program

Memorial exercises will be held at the opera house Friday, May 30th, 1901.

All old soldiers and members of the Relief Corps will meet at Post Hall in Masonic Temple at 1:30 p. m. sharp, and march to the opera house where exercises will begin at 2 o'clock.

The exercises will consist of vocal music, the reading of Lincoln's Gettysburg address, to be followed by an oration by Col. Eli F. Ritter, of Indianapolis, after which the parade will form and march to Riverview cemetery, where the G. A. R. service will be used and a military funeral given, then the decoration of all old soldiers' graves by the children, when taps will be sounded and parade reformed and return to Post Hall.

All of our people are earnestly invited to take part in the exercises of the day, and make it truly a time for the reunion of hearts and hands.

## GET DOWN TO FACTS.

Read What Seymour Citizens Say.

Get down to the facts of the matter. Don't take a stranger's word. It is easier to prove the truthfulness or statements made by citizens of Seymour than endorsement coming from some faraway place. Read the following:

Mrs. David Fox of 618 Ewing street, says, I had a lameness across my hips, my kidneys were weak and irregular and gave much annoyance. My son brought me a box of Doan's Kidney Pills from C. W. Milhous' drug store and I commenced taking them.

Although I did not take the treatment as regularly as I ought yet it cured my back, removed the difficulty with the kidneys and relieved me of embarrassment. I am glad to recommend Doan's Kidney Pills to my acquaintances when I hear them complain of their back or kidneys.

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.

## The Crisis Comes to Women at the Turning Point in Life.

A woman's life is very much like a river. It begins in the little rivulet of girlhood, but grows broader and deeper in womanhood, with many a rock, threatening wreck. At last as middle life is approached a look ahead shows the river broadened out into a calm and placid lake, but before the lake is reached there are rapids to be run, which threaten peril and misfortune. That calm and placid lake is the well-earned rest of wife and mother after years of care. The rapids that lead from the river to the lake mark the period known as change of life. There are few women who pass this period without sickness more or less serious. Sometimes this change of life becomes a sad change, the change of decay. In the body weakness, the mind fails, and the very prime of life the woman finds herself a wreck. No woman can escape this period of change. Just how far-reaching its effects will be, depends upon the woman's health. The only way in which women can approach this time in safety is by making

PROPER PREPARATIONS FOR THE CHANGE.

This proper preparation means the building up of the womanly health and the general physical health, for the health of the delicate womanly organism is intimately related to the general health of the body, and while womanly diseases remain uncorrected the general health must suffer. When an athletic woman enters into a struggle for some championship at golf or tennis, she prepares for the strain and brings her body up to the highest point of resistance to fatigue. If she did not make extra preparation for the extra strain she must endure she would surely be beaten. When a woman nears the period of change of life, she is nearing a period of unusual strain, and if she wishes to win through this period in comfort she must make extra preparation for the extra strain she is to undergo.

Dr. Pierce's Favorite Prescription which makes weak, strong and sick women well at all other critical periods will not fail woman at this last great crisis of her life. If used as a preparative for this change it will practically remove all its pains and dangers, and render this critical time free from the physical disorders and mental affliction so commonly associated with it. But if the period has been entered upon without preparation, Dr. Pierce's Prescription will promptly cure the painful symptoms and restore the balance of perfect health.

"It is now two years since I first began to use your medicines," writes Mrs. Charles E. Thompson, Georgetown, El Dorado Co., Calif. "When I first tried the 'Favorite Prescription' I thought I would never live through the 'Change.' I suffered from all the troubles one could have and live. I had stomach trouble;

lived on dry bread and hot water for three months, not being able to keep any food on my stomach; had constipation and awful headache; was bloated at times in the bowels, had pain in the chest and hacking cough, but, thanks to Dr. Pierce, I am not troubled any more. I also used the 'Pellets' and the 'Golden Medical Discovery,' and find all of them just as Dr. Pierce recommends them to be. "Since last October I have traveled over hard rocky roads in farm wagons and felt no return of any of my old troubles, and I know that before using Dr. Pierce's medicines I could not have stood half of it, as the least jar would have caused aching from head to foot.

I most highly recommend all of Dr. Pierce's medicines, and I hope all ladies suffering from female complaint will try Dr. Pierce's Favorite Prescription, and I know that if used right, relief and happiness will follow."

EXTRAORDINARY RESULTS have followed the use of Dr. Pierce's Favorite Prescription by women undergoing this change. In some cases where insanity has been pronounced the use of "Favorite Prescription" has restored the soundness of mind with strength of body. There is no condition of body resulting from this period which "Favorite Prescription" is not perfectly adapted to meet. In nervous affections its influence is promptly felt. It is a nerve nourishing medicine, and quiets the crying nerves as crying children are quieted—by feeding them. It encourages a healthy appetite, and gives quiet and refreshing sleep. It is the best tonic and nerve for weak, run-down women.

"I can testify," writes Miss Lena Padernik, of 3520 Ricker Street, St. Louis, Mo., "that my mother must give her sincere thanks to the doctors of the World's Dispensary Medical Association for their advice in her trouble—change of life; also must say that the 'Favorite Prescription' with the 'Pellets,' was of great benefit to her. I recommend them to all sufferers in similar cases."

Dr. Pierce's Favorite Prescription is the best friend of women at every critical period of life. It enables the maiden to pass through the first change of life without the lassitude, weakness and misery often experienced. It establishes regularity, drives unhealthy drains, heals inflammation and ulceration, and cures female weakness. It is the best preparative for maternity, giving the mother abundant vigor and vitality, and making the baby's advent practically painless. It is a purely vegetable preparation, containing no alcohol, neither opium, cocaine or any other narcotic. It cannot disagree with the most feeble constitution.

A FACT FOR WOMEN TO PONDER. Any weak and sick woman is invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

It sometimes happens that there are peculiar difficulties to be overcome in the treatment of individual cases, and under such circumstances Dr. Pierce's free advice is often of inestimable value. The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute.

EVERY WOMAN NEEDS a copy of Dr. Pierce's Common Sense Medical Adviser. It is a complete guide to healthful living. This great work, containing more than a thousand large pages and over 700 illustrations is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

## CARMI, ILL.

We had fine showers of rain last week which closed a dry spell of several weeks duration. Crops are now in excellent condition and farmers well advanced with their work.

Elmer Wheeler is putting out five acres of sweet potatoes.

Stocker Wheeler is still in the huckster business.

Mrs. Harvey Wheeler, and children, visited her parents at Crossville, several days last week.

Sam Smith went to Enfield and spent the day with his parents.

Well, we are to lose Prof. A. M. Reedy again. He has accepted an offer of \$80 per month as principal of the schools at Onaha, Ill., for next winter.

George Cross went to Equality, Ill., the first of last week to prepare the remains of a prominent citizen of that place for burial.

Wheat will be much better in this county than was expected, early in the spring. As to fruit, we have a good prospect for a big apple crop, but there will be few peaches.

We read with interest the letter from W. B. Smith, of Moody, Tex., that was published in the REPUBLICAN.

Mr. and Mrs. George Simons are receiving the congratulations of their friends over the arrival of twins—a boy and a girl—at their home, May 21. Their combined weight was 164 pounds. Mrs. Simons was formerly Miss Maggie White, of Freetown.

L. M. Cross and Wendell Poor, our berry growers, are busy now, marketing strawberries.

We are in receipt of a letter from Knowles Smith who recently listed in the U. S. Navy service and is stationed at Newport, R. I.

Sam Smith took a day off and went fishing one day last week. He says he caught a turtle, a drum, a shovel cat and a grinnell. Quite an assortment if true.

Weigant and Smith report business good at the mill, not withstanding the alleged scarcity of corn.

Thomas Setser is now a traveling salesman, we are informed.

Walter Huber still holds his position at Greenwald's clothing store.

Won't Follow Advice After Paying for it.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach and Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by C. W. Milhous.

## FORCEFUL EXPRESSIONS.

The Power of Illustration in the Turn of a Phrase.

James Russell Lowell said, "There's a deal of solid kicking in the meekest looking mule." If the statement had been, "There's a good deal of obstinacy covered by apparent amiability," the remark might have passed without a moment's notice, but attached to such a figure as the poet used it will be difficult for the mind ever to get rid of it.

Mazzini says, "Labor is the divine law of our existence." This is little more than commonplace, but when he added, "Idleness is desertion and suicide," the commonplace was transfigured into a memorable illustration.

A French writer said, "The really efficient laborer will be found not to crowd his day with work." That seems to be forgettable. When he adds, "He will saunter to his task surrounded by a wide halo of ease and leisure," the halo serves the purpose of an explanatory illustration.

President Garfield once said, "Nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself." The tossing overboard was the illustration. The sagacious president gave it significance and emphasis by personal reference, "In all my acquaintance I never knew a man to be drowned who was worth the saving."

When Lavater said, "Habit is altogether too arbitrary a master for me to submit to," it was the word "master" that constituted the memorable illustration.

Carlyle, a great master of metaphor, said truly: "No man lives without jostling and being jostled. In all ways he has to elbow himself through the world, giving and receiving offense." The doctrine of this sentence might easily have become a mere platitude, but it is fixed upon the memory by jostling and being jostled and the elbowing of oneself through the world. This illustration is the very making of the argument.—Joseph Parker, D. D., in Homiletic Review.

## SOME METALS.

Iridium, worth more than \$750 a pound, is the hardest metal known and is used to tip gold pens.

Lithium, worth more than \$1,100 a pound, is used only in medicine, its salts being valuable in rheumatic affections.

Tungsten, worth 30 cents a pound, is largely used in metallurgy and gives to steel qualities similar to those imparted by molybdenum.

Molybdenum, worth \$1.44 a pound, is used in metallurgy. Molybdenum steel possesses the rare quality of preserving its hardness even when heated to redness.

Selenium, which has the curious property of losing its resistance to the electric current under the influence of light, is used in the telegraph and is worth \$22 a pound.

Uranium, worth \$86 a pound, is used in the glass and porcelain industries. It has been found that uranium carbide is superior to nickel or tungsten in the manufacture of high grade steel.

Palladium, which has the smallest coefficient of dilatation, is used for the mounting of astronomical instruments. The standard meter of France is made of palladium. The pure metal costs \$4.82 a pound.

Vanadium oxidizes in air with great difficulty, melts at 2,000 degrees and becomes red-hot in hydrogen. Neither hydrochloric acid nor nitric acid attacks it. It costs \$592 a pound and is used in coloring glass and in making indelible inks.

Italy's Marriage Brokers. Marriage brokers are a regular institution in Italy. In Genoa there are several marriage brokers who have pocketbooks filled with the names of the marriageable girls of the different classes, with notes of their figures, personal attractions, fortune and other circumstances. These brokers go about endeavoring to arrange matrimonial alliances in the same offhand mercantile manner which they would bring to bear upon a purely business transaction, and when they succeed they get a commission of 2 or 3 per cent upon the dowry, with such extras of bonuses as may be voluntarily bestowed by the party.

Animals in Turkey. In Turkey the partridge is detested because once it betrayed the prophet to his enemies, and its legs are red because they were dipped in the blood of Hassan. If a man kills a partridge, he is imprisoned for twenty-four hours and then is handsomely rewarded. The crane is respected, and it is a crime to kill it.

The Crocodile. The crocodile's lower jaw is not socketed in the skull, as is the case with other animals, but the skull is socketed in the jaw, so that the animal can lift the upper part of its head as upon a hinge and so capture what ever prey may be at hand without going to the trouble of getting upon its legs.

What He Wanted to Say. "Prisoner at the bar," said the judge "is there anything you wish to say before sentence is passed on you?"

The prisoner looked wisely toward the door and remarked that he would like to say "Good evening," if it would be agreeable to the court.

Not a Sensible Man. Daughter—Oh, mamma, I do wish I were pretty!

Mother—You needn't, dear. Sensible men think very little about beauty.

Daughter—But it isn't sensible me! I'm thinking about, mamma; it's Charley!

## SURGICAL OPERATIONS.

How Mrs. Bruce, a Noted Opera Singer, Escaped an Operation. Proof That Many Operations for Ovarian Troubles are Unnecessary.

"DEAR MRS. PINKHAM:—Travelling for years on the road, with irregular meals and sleep and damp beds, broke down my health so completely two years ago that the physician advised a complete rest, and when I had gained

MISS G. BRUCE.

sufficient vitality, an operation for ovarian troubles. Not a very cheerful prospect, to be sure. I, however, was advised to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash; I did so, fortunately for me. Before a month had passed I felt that my general health had improved; in three months more I was cured, and I have been in perfect health since. I did not lose an engagement or miss a meal.

"Your Vegetable Compound is certainly wonderful, and well worthy the praise your admiring friends who have been cured are ready to give you. I always speak highly of it, and you will admit I have good reason to do so."—Mrs. G. Bruce, Lansing, Mich. \$5000 Forfeit if above testimonial is not genuine.

## HAND IN HAND.

Sleeplessness, Nervousness, Indigestion the Bane of the Present Day Seymour People know the Remedy.

There is a condition that a great many people get into these days, not sick abed, able to be around but never feeling well, weak and the least exertion tucks them out, as months go on they become weaker until resistance to disease is practically overcome. It was directly for this class that Dr. A. W. Chase's Nerve Pills were formulated, they provide the lacking element that is wanted to remove the trouble Nerve Force.

Mr. J. Blair of 114 North Lynn St., Seymour, Ind., says: For some time I have been a victim of severe nervousness, sleeplessness and indigestion. I heard Dr. A. W. Chase's Nerve Pills well spoken of and thought I would try them. I got a box of the pills at A. J. Peltens drug store and after using one box of the medicine I can say that I think with further use I would get permanent results. I think these pills a grand tonic.

Dr. A. W. Chase's Nerve Pills are sold at 50 c. a box at drug stores or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature A. W. Chase, M. D. are on every package.
